

Fox Class at Home!

English

Reading - use your time at home to read, read and read some more! Use books at home or any online books to increase the variety. Don't forget to include non-fiction books such as encyclopaedias, fact books etc.

Writing - you can really give free reign to your imagination and produce original creative writing! Websites such as Literacy Shed www.literacyshed.com and Pobble 365 can provide some fantastic ideas. Don't forget you can show me your writing via email - foxclass@st-birinus-pri.oxon.sch.uk Why not keep a journal or diary of your time?

Music - listen to lots of genres of different music, maybe music which you wouldn't normally listen to. If you have an instrument at home, carry on practising! Also don't forget to sing! Maybe you could write a song?

Computing - use the internet to research your work, have fun creating powerpoints about your hobbies or use word documents for your writing. You can always email me your work, I would love to see it!

Mathematics - there are lots of fantastic websites which will help you consolidate the work we have already covered in class this year. Take a look at BBC Bitesize and also White Rose Maths:

<https://whiterosemaths.com/homelearning/year-3/>

<https://whiterosemaths.com/homelearning/year-4/>

Don't forget to continue to practise your times tables! It's so important!

Science - what can you find out about Light? Perhaps you could make a fact file about what you discover. Why not make a shadow puppet using cardboard? Can you make the shadow change size? It would be great if you could find out some facts about the Sun - perhaps you could create a poster about being safe in the Sun. We will also be finding out about Sound. Maybe you could have some fun trying to identify how sounds are made, can you feel the sound vibrating? What can you find out?

Summer Term 2020

Note to parents - this curriculum map is only to be used as a guide, please don't feel obliged to do everything on it. Do whatever works for you and your child at this time. You are doing an incredibly hard job with your children's education at home, remember that! Please don't worry if you feel that you don't get much done, you'll be surprised! BBC Bitesize is great for lots of different subjects, have a look. If you need anything at all, support with home learning or just a chat, you can contact me at foxclass@st-birinus-pri.oxon.sch.uk Take care, see you soon!

Home Learning - the most important thing right now is for you to feel happy and safe. I know things are strange at the moment but we will be back together and we can share all our Lockdown Memories in class. Don't forget you can always email me - to show me your work or just for a chat! I love hearing from you. Even though we're not physically together, I am always here for you just like when we were in class. I miss you all, can't wait to see you all again and hear your news!

Art & Design / Design & Tech - try and create artwork using different techniques and materials - sketching, painting, felt tips. Use anything that you can get your hands on! Junk modelling, Lego, show me your creations!

RE - try and find your favourite story about Jesus - why do you like it? Perhaps you could retell it in a comic strip. Try and create a fact file about Christianity or another religion which interests you.

Topic - our topic this term is Vive La France! What can you find out about France? Try and research some key facts and take a look at France in relation to the rest of Europe using a map or atlas. Can you find out about any similarities and differences between different regions of France and where we live in the UK? Maybe you could find out about France's culture and share them with the class when we're back!
